Fire Drill

We do hope that no fire alarms go off during the exam period. However, if one does go off these instructions must be followed in **complete silence**.

1. Should the fire alarm go off, firstly do not panic. Do not attempt to finish the sentence you are writing.

3. When you leave the room you **must** be at least one metre away from the students in front and behind you.
4. You will be told where to go. You will have to be kept separate from the rest of the school.
5. When you return to your exam room, do not start writing until the invigilator tells you to do so. You will be allowed the correct time to complete the examination.

Listen carefully to instructions and do not panic

In the Examination

1. When you are seated at your desk DO NOT turn the exam paper over until you are instructed to do so.
2. Listen carefully to everything the invigilator says. He/she has important instructions to give you.
3. If you do not understand the instructions, **ask**.

4. Write your full name (as on your entry statement) and your examination number on the first page.
5. Do not write in the margins of the examination paper.
6. Do not use graffiti or use obscene language. This will result in the cancellation of your paper.
7. Make sure you know how many questions you have to answer and whether the paper has sections (these details will be shown on the front sheet of the question paper).
8. Read through the whole of a question before starting to answer.
9. Make sure you answer compulsory questions and the correct number of questions overall.
10. Underline the key words in the question to help you keep to the point in your answer.
11. Do not waste time by repeating the question in your answer.
12. If you feel your answer is incomplete, leave sufficient space below, so you can come back to it later and keep it all together.
13. With structured questions, answer all the parts – each part carries marks – do not leave any blank spaces.
14. Write down the answers the examiner has asked for, not all the things you can possibly tell the examiner on the subject. For example, if you are asked to list three items, list three – you will not get extra marks for listing more.
15. Help your examiner by numbering your answers clearly. Show all your working on your answer book. If you make a mistake, do not rub out – cross through with a single line.
16. Make your sketches and drawings good-sized, label them clearly and include all essential points.
17. If you start to run out of time, write short accurate notes instead of sentences.
18. If you have the time, read through your answers. Don't forget you will lose marks for inaccurate spelling, punctuation and grammar. **Check carefully.**
